ORDERING ANTIGEN

- Your allergy antigen should last 15 weeks.
- We need two weeks notification for new antigen mixes. When the antigen level reaches the black line, call 573-815-0662 to make an appointment.
- You will receive the first injection from each new vial(s) in our office.
- For safety, you will need to wait in our office 20 minutes after each injection.
- Your antigen is specific to your allergic needs and cannot be used for anyone else. If an appointment to pick up new antigen is not kept, you will be billed a portion of the cost of the antigen.

FOLLOW-UP CARE

We are committed to helping you improve your overall allergy/sinus health. Allergy injections provide one step in improving your health. Eating healthy, getting exercise, not smoking, improving your home environment and avoiding stress are also important.

In order to track your allergy/sinus progress, every patient is requested to make a yearly appointment with Dr. Denninghoff or Alyssa Sapp, APRN, FNP.
